

Editorial

The 2nd Innovative Teaching & Learning Research Day 2019 (InTReD'19) was organized by Centre for Academic Excellence and Scholarship (CAES) UTeM and was held at Universiti Teknikal Malaysia Melaka, Malaysia on 29th August 2019. InTReD 2019 main objective was for educators, scholars, researchers, engineers, technologists and students from Higher Educational Institutions, Teaching Institutions, Research Institutions and Industries to present findings of completed and ongoing original research activities on teaching and learning, hence foster research collaborations between the universities and the industries. Another objective was to give opportunities for researchers to share the best practices in teaching and learning through poster presentation and product showcase.

This symposium proceeding contains a compilation of 42 papers presented orally from total of 45 manuscript submissions received from local and international institutions and industries. All papers are peer reviewed by over 58 experts in various areas of Teaching & Learning, Learning Skills, STEM Education and TVET Teaching and Learning to ensure the highest quality. It is hoped that through this event, ideas and solutions to the problems and needs of the local industry can be shared and thus, bridging the gap between educators and industries in Malaysia. The proceedings can be electronically accessed via the following link:

Lastly, as the Editor-in-Chief, I would like to express our gratitude to the fellow reviewers for their sincere service in reviewing the submitted papers for this proceeding and special thanks to all members of the organizing committee for their tireless effort for making the symposium such a successful event.

We hope to see you around in the next event, InTReD 2020.

Thank you.
